

Probability?

This is a story about my plot to stop all tyranny over the minds of men (Conspiracy Theory) Something has been going on in my life for the past several years, something magical. I can talk to the Creator and He talks back to me, guiding me. This relationship has distorted my view of the "real world" (Schizophrenia) I'm afflicted by various ailments that come and go. Seizures, headaches, "biting ~~the~~ inside of my mouth", severe pain in my right shoulder blade, and lower back pain. (Hypochondriac) I've been smoking marijuana (Pot-tetrahydrocannabinol) constantly, its good for pain management plus, I like the "High" too. Not too long ago I was arrested for growing marijuana (hydroponically) I'm constantly lighting lighters (Pyromaniac) to smoke weed or cigarettes. Every time I fuck a bitch she turns into an animal (girl-Nymphomaniac) We brake out the camera to record every freaky moment (pornographically) Each time we fuck it lasts for at least 4 hrs, usually all night untill the sun comes up. I'll eat a handful of Loratabs (Acetaminophen-Hydrocodone)

So I can go hard for hours, better
love it. Music is always played around
me. Music sets the mood beautifully,
I love to hear it (stereophonically) I
do not believe there are eye limits for
sex, The government created this to
adjust their "bottom line". There are no
"lines" in nature. Since I think you can
fuck who **you** want, think what you
want, and look at what you want.
(Child pornography) or (Child molester)
Lately, I've been called the
"anti-christ" or people say I'm evil
(Nicolaus Copernicus (anti-christ in the left behind world))
I know more about our Creator and
the bible than anyone on this fuckin'
planet. That makes me the head of
the church, (chaplin) and where the head
of the church lives is right now in
prison (rectory) Some people will "die" spiritually,
when people fuck people who have "died"
(Necrophilia) people are shocked! Look...
Bottom line is this, I'm good for you!
I do not cause allergic reactions! (hypoallergenic)
Next comes "a court of law"... Someone
is going to listen to me. I'm forcing someone
to type everything I say! (stereographically)
This is a ballistics test of wit! (eurytechnical)

I just told you the facts, look at the list below and you will see that this was created for me specifically.
